

Take part in the EIT Food online workshop **Research data management in agri-food R&D projects** and learn about professional Data Management!

The workshop takes place online on **June 18th, 2021 from 10.00 to 14.30** and is organised in cooperation with Visnea - experts in the field of R&D and data management.

IS THIS WORKSHOP FOR YOU?

💡 Are you currently carrying out or planning to carry out research or R&D projects financed from EU or national grants?

💡 Would you like to learn more about scientific data management for research projects and the requirements of the European Commission and national authorities with regard to this topic?

💡 Are you interested in agri-food and would like to learn about best practices in data management in this field?

IF YOU ANSWERED YES TO ANY OF THESE QUESTIONS THEN THIS WORKSHOP IS FOR YOU. TOPICS COVERED DURING THE WORKSHOP:

- What is data management and why do we do it?
- How does EIT Food support innovation and cross-sector agri-food collaboration?
- Data Management – the best international practices
- Data Management Plan (DMP) – how to design and update it.

FOLLOWING COMPLETION OF THE WORKSHOP YOU WILL KNOW:

- 👉 the rules and responsibilities governing data management
- 👉 practical examples of data management in the agri-food sector
- 👉 the key elements of a Data Management Plan
- 👉 about data sharing standards
- 👉 how to preserve data.

The workshop takes place online. More information can be found on: <https://www.visnea.org/eit-workshop>. Please register by filling out the application form: <https://www.visnea.org/eit-registration> until June 15th, 2021. Due to the formula of the workshop, the number of participants is limited. A certificate confirming participation in the workshop will be issued on request. Workshop will be held in English.

Thanks to the co-financing from EIT Food, the price for one participant is EUR 119 + VAT.

EIT Food is Europe's leading food innovation initiative, working to make the food system more sustainable, healthy and trusted.

The initiative is made up of an innovation community of key industry players across Europe, consisting of over 90 partner organisations and over 50 startups from 16 EU member states. It is one of the Knowledge and Innovation Communities (KIC) established by the European Institute for Innovation & Technology (EIT), an independent EU body set up in 2008 to promote innovation and entrepreneurship across Europe.
