

YOU + INTERNSHIP = IT'S A MATCH!

We launch recruitment for the EIT Food RIS Fellowships 2021

Each year students take up their chance to get a unique internship among agri-food European top players. In this 4th edition of the EIT Food RIS Fellowships Action Line, 40 internship opportunities in different departments and operation areas are waiting for you. It is time to grab the golden ticket to develop your career in one of the EIT Food institutions. Find your place among big companies like Maspex, Puratos, Grupo AN, or small start-ups like Napiferyn Biotech, Agricolus, Foodpairing or many others. Take part in our recruitment process, fight for a paid 3-6 months internship abroad and gain industry and organizational knowledge through daily business interactions and job assignments.

Remember that likewise, in 2020, we are very flexible in internship modes. We find best-fitted solutions to COVID travelling situations. It is possible to choose one of the ways: on-line, on-site or a hybrid. We will support you at all stages of the recruitment process and your internship course.

If you are **MSc**, grab your opportunity to apply academic knowledge in practical work contexts and develop a creative problem-solving competence. ([Apply here](#))

If you are a **PhD**, do not miss the chance to develop critical thinking competence by participating in innovation projects, R&D projects led by EIT Food partner organizations or Horizon Europe projects. ([Apply here](#))

Plenty of possibilities are available!

#It's a match - [APPLY NOW!](#)

DEADLINE: 12th April 2021 (23.59 CET).
