

JUMPSTARTER

JUMPSTARTER

Turn your innovative idea into a successful business!

MAKE A JUMP AND START YOUR BUSINESS WITH US!

EIT Jumpstarter programme supports people with promising ideas of innovative products and services in agriculture, food processing and distribution, healthcare, energy, raw materials, urban mobility or manufacturing sector.

Do you want to develop your concept and make a difference in these industries? We will provide you with knowledge, contacts and support.

For whom?

- Scientific project teams, innovators, scientists, PhD students or master's students who have unique solutions for one of the following sectors: agrifood, healthcare, raw materials, energy, urban mobility or manufacturing.

EIT Food is supported by the EIT
a body of the European Union

www.eitfood.eu

How will you benefit from participating in the Jumpstarter?

Intensive bootcamp fully financed by the EIT

Do you have an original idea that can improve important processes in some of the above industries? Do you see room for improvement in agriculture and its supply, food production, processing and distribution, logistics, packaging and tracking, food consumption and healthy nutrition or reduction and valorisation of food waste? Join our programme!

Individual mentoring with financial support

Cooperate with the best-of-the-best experts from the EIT communities who will support turning your ideas into a real running business.

Meet other visionaries who want to change the rules of the game with their business

Join the programme - it is the first step to work with the largest pan-European network of innovators Knowledge and Innovation Communities of the European Institute of Innovation and Technology, which gathers your potential future clients, investors or partners.

International environment shortening your way to foreign markets

Learn how to address your customers' relevant problems and how to validate your solution. Develop a feasible business model for your company.

PROGRAMME OVERVIEW
